THE WHAT

In this six-month experiential learning program, participants in Mentor School will prepare to capably and confidently mentor their colleagues. As part of the Mentor School cohort, members must commit to attending monthly in-person meetings hosted at Apprentice University. Lasting from morning to lunch, each meeting has a specific agenda that ensures participants will benefit from both excellent content and meaningful application. Each mentor is required to bring their mentee to three designated meetings.

THE HOW

Each month, we cover a particular aspect of mentoring. **2020 Lineup:**

Month #1 – **Mindset** (with mentee)

Month #2 – **Roles**

Month #3 – **Structure**

Month #4 – **Relationships**

Months #5 – **Relationships**
(with mentee)

Month #6 – **Tools and Techniques**
(with mentee)

THE WHO

At Apprentice University, we strive to make education unrestricted. **Our university unites mastery-based education with hands-on experience in an innovative learning model.**

Students work Monday to Thursday in mentor-led apprenticeships to build hard skills essential for their professional success. On Fridays, they participate in rigorous classes taught by industry leaders. And they do all this within an integrated cohort model, which offers them a supportive community while at Apprentice University.

Pairing academics with experience enables students to better meet real-life challenges and equips them to solve problems with efficiency and clarity. Our emphasis on mastery encourages intentional lifelong learning. Upon graduation, our students possess the essential tools to thrive in the marketplace.

Ultimately, we champion education unrestricted because we desire to see our students flourish. **The Apprentice University mission is to prepare students to become intentionally extraordinary.**
